IF U S WEST COMMUNICATIONS IS YOUR LOCAL PHONE COMPANY

We can provide you with local telephone service, long distance service within your calling area, and other telephone services. You'll find more information about the kinds of services available to you in this Customer Guide. You may find it helpful to read this information before placing your order for new phone service. Since the following information may have changed since this directory was compiled, please call the number at the top of this page for current information.

WHEN YOU'RE READY TO START YOUR PHONE SERVICE

Call the U S WEST Communications service number at the top of this page. A service representative will describe the services available to you, explain what each costs, and take your order. We need to know:

- How you want to be listed in the White Pages directory (see page A15).
- Your complete street address (including apartment or suite number).
- The types of services you want.
- Information about your previous telephone service, including phone number, city and state.
- Employment and credit information (for home telephone service).
- Business ownership information (for business service).

You Need To Provide Your Own Telephone Set

If you don't have a telephone set, you can buy or rent one from a store or company that carries them. Party line customers may need specially modified telephones for their service to work properly. You are not required to obtain your telephone or other terminal equipment from the telephone company in order to receive service. Rates and services are provided on an equal basis no matter where you obtained your equipment. Call the number at the top of this page for more information.

You Need To Select A Long Distance Company

U S WEST Communications provides long distance service within your calling area. You must select a long distance company to make long distance calls to other calling areas.

If You Have Phone Service And Need To Make A Change:

Call the number at the top of this page. A U S WEST Communications service representative will handle your request and explain what each change will cost.

What It Costs To Begin Or Change Service

The one-time charge to install or change your telephone service depends on the amount of work required. Generally, you're charged for the work we do to process your order and to connect or make changes in your service.

Service order charges: Home – new service $19; service charges $13; central office connection charges $16. Business - new service $25; service charges $22; central office connection charges $25.

If you have our technicians install jacks or wiring inside your home or business you'll be charged for the time the technician is there and for the materials used.

We require advance notice to install new service. In many areas Express Service is available for an additional charge to customers who need same-day or next-day installation. For more information, call the number at the top of this page. (Residential customers only.)

There Is No Charge To Disconnect Your Phone Service

Call the number at the top of the previous page to stop your service. You pay only for the time your phone is connected.

WHY WON'T MY PHONE WORK?

That depends on whether the problem is in your telephone set, in the wiring inside your home or office, or in the outside lines and switching equipment that U S WEST Communications uses to provide you with service. Simple tests can help you determine whether to call U S WEST Communications or another company for assistance. These tests may save you time and money. If you have a party line, call the repair service number at the top of this page for further instructions.

HOW TO TROUBLESHOOT

These tests can help you determine why your phone isn't working:

1. Check to see if all of your telephones are hung up.
2. If you have only one phone and it unplugs, take it to a friend's home or office and plug it in. If it doesn't work there, you probably have a phone equipment problem.
3. If you have two or more phones that unplug, unplug all of them. Then try each one – one at a time – in each jack or outlet. If one phone doesn't work anywhere, you probably have a phone equipment problem. If none of the phones work in a particular jack, you may have a jack problem.
4. Borrow a friend's phone and try it in each of your jacks. If it doesn't work in a particular jack, you probably have a jack problem. If it doesn't work in any jack, you may have a U S WEST Communications line problem.
5. If your phone doesn't unplug, contact the company that sold or leased it to you for directions on how to remove it.
6. If you have phone accessories – such as answering machines, speaker phones, cordless phones, a security system, or night bells – make sure that equipment is working. If your telephone service works without the added equipment, the problem may be with the accessories.

If You Hear Noise On Your Line:

It may be caused by the weather, aerial satellites, poor grounding or other conditions that are only temporary. If the noise persists, the troubleshooting tips listed above may help isolate the problem.

The interference may also be caused by radio frequency signals from amateur, citizens band (CB) and AM/FM broadcast stations. The installation of a modular filter, obtainable from most stores selling telephone equipment, may help.

Because cordless telephones operate on radio frequencies, they can also receive interference from nearby radio transmitters. Contact your cordless telephone equipment supplier or manufacturer for assistance with these problems.

If You Hear A Rapid Busy Signal:

While making a local or long distance call, it means that all telephone circuits are busy. Wait a few minutes, then try your call again.

Repair Service

Continued from previous page

OUR REPAIR SERVICE CENTER CAN HELP ISOLATE THE PROBLEM

We can test your line. But in some cases, we won't know what's wrong without sending a repair technician to your home or office. There may be a charge for this repair visit. Troubleshooting – described on the previous page – may help you isolate the problem yourself and save you time and money.

If The Problem Is In Your Telephone Set:

Follow the instructions on your warranty or contact your equipment retailer. U S WEST Communications cannot repair your telephone equipment.

If The Problem Is In Your Jack Or The Wire That Runs Through Your Home Or Office:

You have three options:

1. You can call U S WEST Communications. If you subscribe to one of our optional wire maintenance plans, we will repair your jack or inside wiring at no charge. If you don't subscribe, we will still be happy to repair the problem. But we will have to charge you for labor and materials.
2. You are welcome to hire any independent contractor or home repair expert to repair your jack or inside wiring.
3. You can repair the problem yourself.

If The Problem Is In U S WEST Communications' Outside Lines Or Switching Equipment:

Call the repair service number at the top of the previous page.

U S WEST Communications Can Repair:

The outside lines and switching equipment we use to provide you with service, at no charge to you (unless damage is due to negligence on your part).

We can also repair the wiring that runs inside your home or office. There is a charge for this service, unless you subscribe to one of our wire maintenance plans.

U S WEST Communications Cannot Repair:

Telephone equipment, other than our public (pay) phones.

CALL WAITING – A short tone indicates an incoming call when you are on another call.

To Use – When you hear a brief tone, press and release disconnect button. Answer second call or alternate between calls by pressing and releasing disconnect button.

To Temporarily Turn Off – Lift receiver and press ★70 (rotary dial 1170).
Listen for 3 short tones followed by dial tone. Place call. If you're already on a call and have 3-Way Calling, turn off Call Waiting by pressing and releasing receiver button, followed by ★70 (rotary dial 1170).

CALL FORWARDING – Temporarily forward calls to another number you select. Call Forwarding remains in effect until you deactivate it. Your phone will ring briefly before call is forwarded. If forwarded to a long distance number, you will be billed the long distance charge. If you have measured service, applicable charges will apply.

To Use – Press 72# (rotary dial 72). After a dial tone, dial the number your calls are to be forwarded to. After answer, wait a few seconds and hang up. Two quick tones means Call Forwarding is activated.

To Deactivate – Press 73# (rotary dial 73), and listen for two quick tones.

THREE-WAY CALLING – Allows you to talk to two other parties in different locations at the same time, or add a second person to your call, or put one on hold and make a second call.

A LIST OF LONG DISTANCE COMPANIES IN YOUR AREA:

Can be found in the Yellow Pages. Each company can provide you with information about its rates, calling areas, and dialing instructions.

CALLING LONG DISTANCE WITHIN IOWA

Iowa is divided into five long distance calling areas (see map on this page). U S WEST Communications provides local and long distance calling service within the boundaries of these areas, but not between them.* Make long distance calls within your calling area by dialing 1 + the telephone number. U S WEST Communications will charge you for the call. Use another long distance company to make calls between these areas. That company will charge you for those calls and can provide you with rate information and dialing instructions.

*Local phone service may be provided by other telephone companies in these areas.

Long Distance Calling Area

OTHER TYPES OF LONG DISTANCE CALLS

Calling Long Distance Outside Your Calling Area

In all but a few cases U S WEST Communications does not provide long distance service between states or between sections of the same state that have different calling areas. (See map on this page.) Contact your long distance company for rates and dialing instructions.

"800" Service

Calls to "800" numbers are free. Dial: 1 + 800 + the telephone number.

International Calls

Contact your long distance company for information on international calling rates and dialing instructions. International calling codes are listed on page A23.

NEW DIALING PLAN

Effective February 13, 1994, you are encouraged to include the area code between the 1 and the seven digit telephone number on every long distance call you make. This includes long distance calls made within your own area code. After June 19, 1994, you are required to dial 1 + the area code + the seven digit phone number on all long distance calls, including those made within your own area code. Dialing of local calls is not affected. This change is required to make new area codes available to meet the increasing demand for telephone numbers throughout the U.S. and Canada.

DISCOUNTS WITHIN YOUR CALLING AREA

• Direct Dialing Saves Money

Dial your own long distance calls to pay the lowest rate and only for the minutes you talk. There's a one-minute minimum. Dial "0" for information on U S WEST Communications long distance rates.

• Discount Calling Periods

This chart shows the times you can get a discount on long distance calls within your calling area. Discounts apply to all calls. Those requiring the assistance of an operator will include an additional service charge which does not qualify for a time of day discount. Save money by calling evenings, nights, weekends and selected holidays (New Year's Day, July 4, Labor Day, Thanksgiving and Christmas). If you start your call during one rate period and hang up during another, your call will be prorated between the two.

• Discount Calling Plans

All Time® Volume Discounts may also help you save money. Business and residence customers get volume discounts on calls made within their U S WEST Communications calling area. Call the service number at the top of page A14 for more information.

CALLING CARD CALLS

If you have a U S WEST Communications Calling Card, you can make local and long distance calls and charge them to your regular monthly bill. Next to direct dialing, using your Calling Card is the least expensive way to call compared to other types of operator-assisted calls. Call the U S WEST Communications service number at the top of page A14 for more information.

The U S WEST Communications Calling Card is accepted by many long distance companies for making calls outside your U S WEST Communications long distance calling area. Here's how to make a Calling Card call to a number within your long distance area:

- From a push-button phone with Touchtone service: Dial 0 + the telephone number, wait for the tone, then dial your Calling Card number.
- From a rotary dial phone: Dial 0 + the telephone number, wait for the operator to answer, say you're placing a Calling Card call, and give your card number.
- To the same telephone number that's on your Calling Card: Dial 0 + the telephone number, wait for the tone, then dial your four-digit personal identification number (the last four numbers on your card). For calls made from another calling area, dial your area code before you dial your phone number.

Rate: Direct dial rate + 60¢ service charge.

If Your Calling Card Is Lost Or Stolen:

Call 1 800 422-LOST (5678) as soon as possible.

USING THE OPERATOR OR EXPRESS OPERATOR SERVICE TO MAKE CALLS

Within Your Calling Area

There is an additional charge for calls requiring operator assistance. They are more expensive than Calling Card calls or calls dialed directly from your home or office.

- **Express Operator Service**

  Dial 0 + the number. You will hear a U S WEST Communications announcement and a "bong" tone. The recorded message will instruct you on what numbers to enter to make a collect call, or a call billed to another number. When billing a call to another number, the party being billed will be asked to accept the charges by responding "yes" or "no." For assistance at any time, press 0. From a rotary dial telephone dial 0 + the number. After the "bong" tone, press the receiver button and an operator will assist you.

- **Collect Calls**

  Dial 0 + the number. Tell the operator you're making a collect call. The operator will hang up when someone at the number you've called accepts the charges. Rate: Direct dial rate + $1.10 station call or $2.60 person-to-person call service charge.

- **Calls Charged To A Third Number**

  Dial 0 + the number. Tell the operator you want to charge your call to a third number. If you're calling from a public (pay) phone, the operator will call the third number to make sure the charges will be accepted. The call won't go through if the operator can't get approval. Rate: Direct dial rate + $1.10 station call or $2.60 person-to-person call service charge.

- **Person-To-Person Calls**

  Dial 0 + the number. Tell the operator you're making a person-to-person call to a specific person. The operator will hang up and charge you for the call only when that specific person answers. You can place a person-to-person call when you call collect, use your U S WEST Communications Calling Card, or charge your call to a third number. Rate: Direct dial rate + $2.60 service charge.

- **If You Want To Know How Much Your Call Will Cost:**

  Dial 0 + the long distance number. Tell the operator you want "time and charges." When you finish the call, a computer voice will return to the line to tell you what you'll be charged.

- **Operators Can Check A Busy Line:**

  In most areas to determine if someone is actually speaking on the line. Rate: Busy verification $1.10. Busy verification and interrupt $1.50.

Outside Of Your Calling Area

Contact your long distance company to find out how to use an operator to place calls to other area codes.

Many Companies Have Operators

When away from home, you can choose the long distance company you want to handle your operator-assisted calls. Many companies provide collect, person-to-person, third-number billed and credit card services. Their rates may vary. You may ask any operator for company identification and rate information before beginning your call. If the operator does not represent the company you want, or if you are not satisfied with the rates, you may choose another way to place your call.

"976," "960" AND "900" NUMBERS

What They Are:

Private companies offer a variety of informational programs using phone numbers that begin with "976," "960" or "900." There is usually a charge for calls to these numbers. Charges for "976" calls appear on your monthly U S WEST Communications telephone bill; "960" calls are billed separately. "900" calls appear on the Interexchange Carrier page of your bill. These calls may also include a long distance charge. Calls for which the charge is one dollar or more must contain an introductory disclosure message specifying types of charges, time necessary to complete the call, and an option to disconnect without charge at end of introductory message.

The price and content of "976," "960" and "900" services are the responsibility of the companies that provide the information. Call 1 800 879-2455 for more information.

Pay Per Call Services that contain illegal or sexually explicit material are not allowed. Nor do we disconnect your telephone service for disputes about payment of "976" or "900" charges.

YOUR PRIVACY IS IMPORTANT

We make every effort to protect your telecommunication services from unlawful wiretapping or other illegal interceptions. Customer service records, credit information and related confidential personal account information are fully protected.

Illegal Wiretapping

It is a crime under federal and state laws for any person to wiretap or otherwise intercept a telephone call unless that person has first obtained a court order or the consent of one or both people participating in the call. The penalty for illegal wiretapping can be imprisonment and/or a fine.

We May Listen To Calls Between You And Our Employees

It's one way our managers can make sure you're receiving prompt and courteous service and accurate information. These calls are randomly selected and are not recorded. They include calls to our repair bureaus, customer service numbers, directory assistance and "0" operators.

IF YOU RECEIVE OBSCENE OR HARASSING PHONE CALLS:

- Hang up at the first obscene word.
- Hang up if you say "hello" twice and get no response.
- Give no information, such as your name and address, until your caller has been identified.
- Teach your children to give no information to strange callers. If you're not at home, they should tell callers you are busy and can't come to the phone.
- If calls persist, call the number at the top of the previous page, or contact your local law enforcement agency. Immediately call your local law enforcement agency if you receive calls threatening injury to a person or damage to property.

It's against the law to make obscene, threatening or anonymous phone calls. Telephone harassment is a crime. Penalties include imprisonment and/or a fine.

EMERGENCY CALLS HAVE PRIORITY ON PARTY LINES

State law says you MUST immediately yield the use of a party line to anyone saying the line is needed for an emergency call. An emergency is any situation in which property or human safety is in jeopardy and emergency service personnel must be summoned.

It's against the law to gain control of a party line by falsely stating that an emergency call needs to be made. Penalties for violating party line laws include fines and/or imprisonment.

YOU CAN'T USE AN ANSWERING MACHINE ON A PARTY LINE

That's because answering devices cannot give up a line in an emergency. They also disrupt service for everyone on the party line.

IF YOU RECEIVE UNWANTED SALES AND SURVEY CALLS:

- Hang up, if you aren't interested in talking with the caller.
- Be skeptical of offers that sound too good to be true; they usually are.
- Resist high pressure sales tactics.
- Companies should be willing to provide their name, address, phone number and references. If not, be skeptical. Verify this information before making a purchase.
- Report companies using questionable sales practices to the Better Business Bureau or your state attorney general's office.
- Contact the Direct Marketing Association to have your name removed from telephone solicitation lists. Write to Direct Marketing Association, Inc., 6 East 43rd Street, New York, NY 10017.
- Call the number at the top of B1 to have your name removed – at no charge – from lists that our company leases to other firms. Customers with unlisted or unpublished numbers are never included on the lists we lease.
- Do not give your telephone credit card number to anyone who calls and asks for the number.

TELEPHONE SAFETY TIPS

Your telephone is one of the safest appliances in your home or office. But there are times when you should be careful using it:

- Don't use the telephone in the bathtub, shower or swimming pool. Dropping the phone into water could cause a shock.
- Avoid using the telephone during electrical storms. U S WEST Communications uses protective measures to limit electrical surges from entering your home or office, but absolute protection from lightning is impossible.
- If you suspect a gas leak, use a telephone away from the suspected area to report it. The telephone's electrical components could create a tiny spark when you dial. Although unlikely, that spark could ignite heavy concentrations of gas.

DIRECTORY ERRORS AND OMISSIONS:

U S WEST Communications' liability due to errors in or omissions of directory listings shall be limited to and satisfied by an amount not exceeding one-half of the local exchange service charges (lines or trunks if PBX-CENTREX) for the service affected for the period from the date of issuance of the directory in which the mistake occurred to the date of issuance of a new directory containing the proper listings.

This tariff is on file with the Iowa Utilities Board and is also available for review at your telephone company.

U S WEST Communications has attempted to publish information that is current and accurate. However, the company cannot guarantee errors will not occur. The company is not responsible for the accuracy of material supplied by its subscribers. In no event does U S WEST Communications assume any responsibility to notify directory users of any error or omission.

U S WEST COMMUNICATIONS

TO CALL A PARTY ON YOUR LINE

Two-Party customers dial the listed number, hang up. Your bell and the bell of the called telephone will ring until the called telephone answers. When your telephone stops ringing, lift your receiver and begin your conversation. If no answer, lift your receiver for a moment and then replace it. This will stop the ringing and will clear the line for other calls.

AREA HISTORY AND ATTRACTIONS

Corn, soybeans, and pigs are Iowa's main agricultural products
Photo courtesy of the Ames Convention & Visitors Bureau

HISTORY

Ames lies near the geographical center of Iowa, about 35 miles north of the state capital at Des Moines. Its location in the heart of rich agricultural land led to its selection as the site for the Iowa Agricultural College and Model Farm, created through a bill passed by the Iowa General Assembly in 1858.

Farm House, built in 1860, was the first building for the college. The school became a land-grant college under the 1863 federal Morrill Act, was renamed the Iowa State College of Agriculture and Mechanic Arts in 1898, and became Iowa State University (ISU) of Science and Technology in 1959.

Ames was founded in 1864 in anticipation of the arrival of the Cedar Rapids and Missouri Railroad. The president of the railroad, John Blair, named the settlement after Massachusetts Congressman Oakes Ames, a promoter of the railroad system.

Ames was incorporated in 1870 with a population of slightly over 800. The original town consisted of a 12-block area extending from the railroad north to Ninth Street. The eastern and western borders were Duff and Burnett avenues. With increasing rail shipments of farm products and the growth of the college, Ames prospered.

Research activities on the ISU campus during WWII led to the establishment of the Ames Laboratory. ISU's resources have been instrumental in attracting other government agencies and national industries. Ames is the largest city in Story County and has a population of over 46,000, including student enrollment at ISU.

U S WEST Direct, publisher of this directory, is pleased to be part of this central Iowa community.

INDUSTRY AND SERVICES

Manufacturing, education, and the professions have surpassed farming as the dominant industries in the city's economic base. Many international and national corporations have plants located here. A research park complex in Ames gives businesses access to expertise available at Iowa State University.

Iowa State University is the city's largest employer. McFarland Clinic and Mary Greeley Medical Center are the second largest employers. They function as a regional referral center for central Iowa, providing a variety of special-care services.

Branches of state and federal government agencies also are located here. Ames is home to the Iowa Department of Transportation headquarters, the United States Department of Energy's Ames Laboratory, and the United States Department of Agriculture's National Animal Disease Center and National Veterinary Services Laboratories.

The Ames city government joined with the university administration and the student body government to form a system of public transportation called Cy-Ride. For more information about this transportation program, see page EZ 17 of this *Easy Reference Guide*.

PARKS AND RECREATION

Ames recreation facilities include ballfields, an ice-skating center, tennis courts, bicycle paths, golf courses, swimming pools, and nature trails. Summer concerts are held in **Municipal Bandshell Park**. The Ames Parks and Recreation Department offers a year-round schedule of activities ranging from instructional classes to organized sports. For more information contact the Ames Parks and Recreation Department. 239-5350

County parks and conservation units, Iowa State University's horticulture gardens and arboretum, and a preserved natural prairie within the city limits are additional recreation sites.

The Ames and ISU communities sponsor several annual events. The **Midnight Madness Road Races** are held in July. A bicycle ride precedes 5K and 10K runs. The **Iowa Games** are held in August. The **Iowa Masters Tournament** is held annually at ISU's Veenker Memorial Golf Course.

Sports enthusiasts may enjoy Iowa State University's varsity competition in the Big Eight Conference. The **ISU Cyclones** play basketball in the James H. Hilton Coliseum and football in ISU's Cyclone Stadium/ Jack Trice Field.

INDIAN CREEK CONSERVATION UNIT contains Hickory Grove Park, Praeri Rail Trail, Robison Acres, and Hickory Grove and Dakins lakes. Popular activities include boating, camping, cross-country skiing, and snowmobiling. Sections of this unit are wildlife habitats and are open for hunting and trapping in season. Year-round fishing is popular on Hickory Grove Lake.

SKUNK CREEK CONSERVATION UNIT includes McFarland Park, Peterson Park, the Skunk River Greenbelt, and various prairies and marshes. Attractions include a handicapped-accessible trail, an observatory for astronomical study, and ongoing education programs.

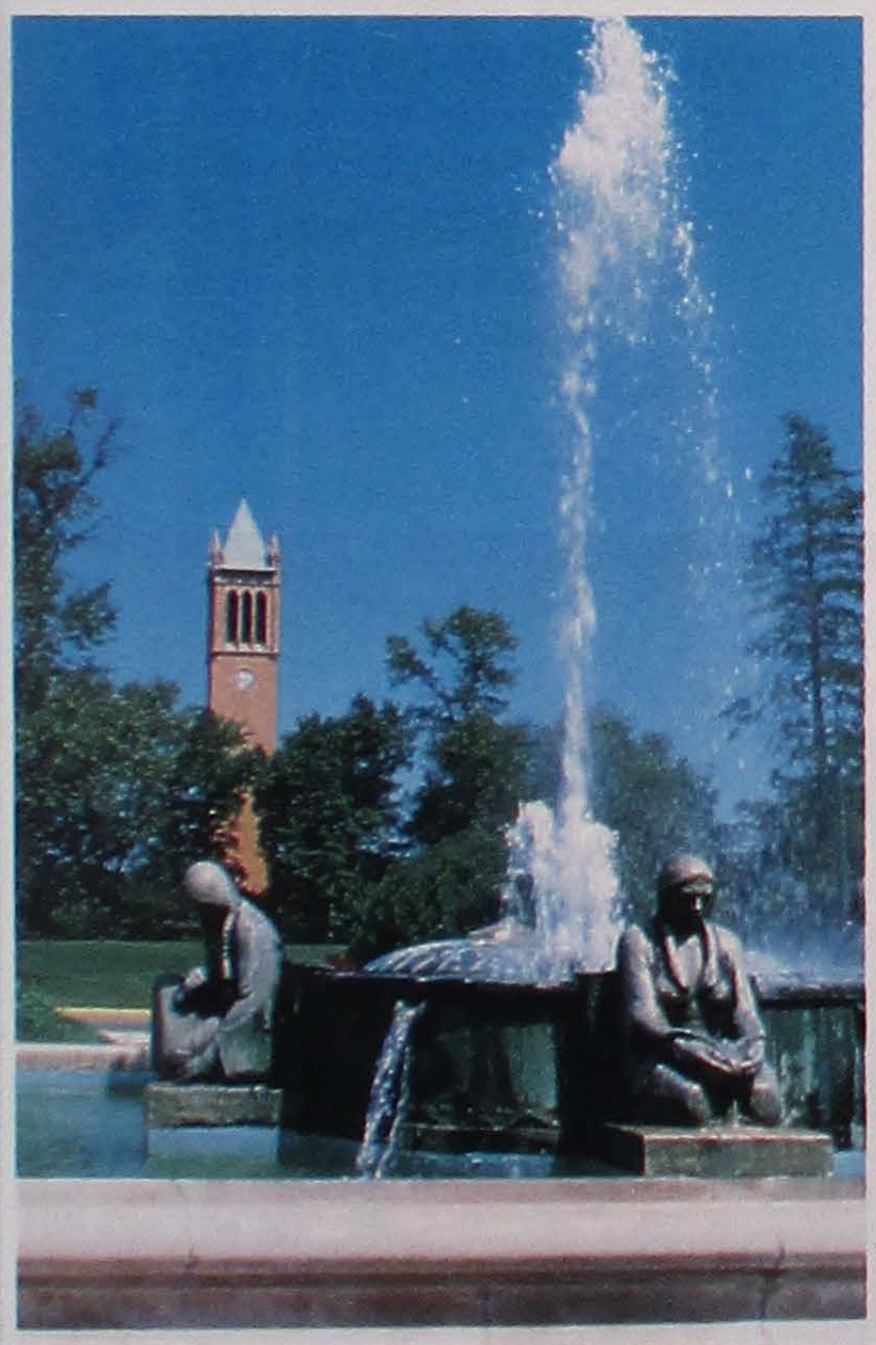

Carriage rides are a popular downtown attraction

The Skunk River trail leads to Soper's Mill, one of the county's first grist mills, and to "Rainbow" Bridge, which is on the National Register of Historic Sites.

IOWA ARBORETUM, southwest of Ames, contains hundreds of cultivated trees, shrubs, and flowers. There are many hiking trails throughout its 340 acres. Plant labels and descriptive pamphlets assist self-guided tours. Admission is free. Tours and educational programs are offered year-round. 795-3216

IOWA STATE UNIVERSITY

ISU occupies a central position in the Ames community. The university is the birthplace of the electronic digital computer — the Atanasoff-Berry Computer — which was designed and built in the late 1930s by mathematics and physics professor John Vincent Atanasoff and graduate student Clifford E. Berry.

ISU founded the nation's first state veterinary medicine school in 1879, established the nation's first statistics laboratory in 1933, and owned the nation's first educational television station.

ISU was the first college in the country to offer college-credit courses in teacher education and home economics and was the first land-grant college that was coeducational from its beginning. ISU provides a variety of courses that may be audited or taken for credit, including evening and weekend classes.

The campus itself has many attractions in addition to its educational facilities. Historical markers are located throughout the main campus, which also serves as an arboretum. When classes are in session, the 50 bells of the Campanile provide daily midday concerts. Campus maps are available from the Campus Information Center in the student union. 294-5836

ISU provides numerous cultural and athletic activities. Its **Iowa State Center** hosts concerts, ballet troupes, theatre productions, orchestras, and exhibitions. The center is a four-building complex that includes the **C.Y. Stephens Auditorium**, the 14,000-seat **James H. Hilton Coliseum**, the 450-seat **J.W. Fisher Theater**, and the **Carl H. Scheman Continuing Education Building**.

IOWA GAMES

1993 will mark the seventh anniversary of the Iowa Games, the multi-sport, Olympic-style competition that has grown to become the state's largest individual sporting event. Amateur athletes of all ages and abilities will renew a tradition as they come together to experience the thrill of the Olympics at the grassroots level.

Including the participants in the regional qualifying festivals in Cedar Falls/Waterloo, Davenport/Bettendorf, Greater Des Moines and Sioux City, over 15,000 individuals participated in some level of 1992 Iowa Games competition. Of that number, over 11,000 individuals participated in the finals event in Ames.

This past January, the first Iowa Games Winter Sports Festival was held in Dubuque. Over 1,400 athletes participated in seven sports in the weekend event. The Second Annual Winter Games Sports Festival will take place January 29-30, 1993, once again in Dubuque. Iowa State University and the City of Ames will host the 1993 Iowa Summer Games. The summer games are held annually on the first weekend in August. Regional festivals will again provide preliminary rounds in some sports.

The Iowa Games are part of a national movement of state games that began in 1978 with New York's Empire State Games. Currently over 40 states are either hosting or planning a state games event. In February of 1990, the national governing body of state games, The National Congress of State Games, was admitted to the United States Olympic Committee as a member organization.

In Iowa, the Games are a project of the Iowa Sports Foundation, Inc. and are endorsed by the Iowa Governor's Council on Physical Fitness and Sports, the Iowa Association of Health, Physical Education, Recreation and Dance, and the Iowa Park and Recreation Association.

EMERGENCY PREPAREDNESS INFORMATION

The keys to coping with an emergency are awareness and planning. The guidelines on these pages are designed to help prepare for—and get through— emergencies that may occur in this area. For more information contact the local city or county emergency manager, civil defense director, or the local chapter of the American Red Cross.

BE PREPARED

1. **Schedule occasional family conferences to discuss procedures to follow in different kinds of emergencies.**

2. **Hold practice drills.**

3. **Post and memorize emergency telephone numbers (including poison control).**

4. **Assemble and store a survival kit containing:**
   - flashlights and portable radio with extra batteries
   - first aid kit with manual
   - crescent and pipe wrenches for turning off utilities
   - chlorine bleach for water purification
   - fire extinguisher
   - emergency food and beverage supply (non-perishable food, juices, and one gallon of water per person per day.)
   - spare eyeglasses, prescribed medications, baby food, pet food, and special dietary foods
   - manual can opener
   - sanitation supplies—large plastic trash bags, soap (hand, dish, and shampoo), toothbrush and paste, feminine supplies, infant care items, toilet paper, newspaper, and a camp shovel
   - blankets
   - cooking equipment
   - a complete change of clothes for each person in the family

5. **Learn first aid.**

6. **Establish a location for the family to reunite if members become separated.**

7. **Arrange for a friend or relative in another town to be a communication contact for the extended family.**

8. **Learn the emergency plans of the family's schools, day care centers, workplaces, and clubs.**

9. **Make a habit of tuning in to daily weather forecasts and be aware of changing conditions. The Emergency Broadcast System on commercial radio and TV stations will announce a WATCH if an emergency situation is expected and a WARNING if it is imminent or in progress.**

10. **Learn Emergency Food and Water Procedures**
    - Be prepared to take care of yourself and your family for up to five days.
    - Take emergency drinking water from melting ice cubes, toilet tanks (not bowls), water heater, and canned fruits and vegetables.
    - Don't drink municipal tap water, or water from any questionable sources, until it has been strained with a clean cloth and treated. To treat water add 10 drops of chlorine bleach to each gallon of water, mix well, and let stand for about 30 minutes.
    - Freezer foods will last from 48 to 72 hours if the freezer is full and the door stays closed.
    - Discard all open food and beverages that may have been contaminated.
    - Eat perishable foods first.
    - Cook on portable grills, but only outdoors.

11. **Determine an evacuation route and alternates.**

12. **Find out where main utility switches are and learn how to turn them off if they rupture and trained technicians are not available.**

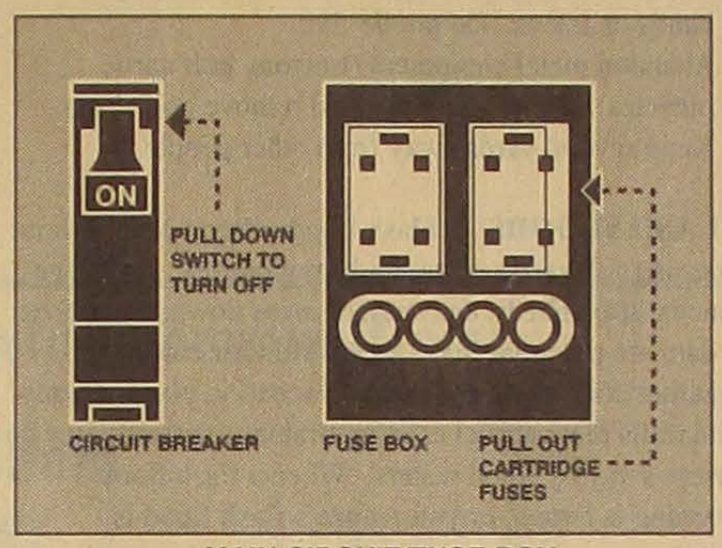

UTILITIES

Gas

- If you smell gas, evacuate the house. Don't use the phone, light switches, or electrical appliances or do anything that will cause sparks.
- Go to a phone booth or neighbor's house and report the leak to the gas company.
- After the leak is repaired, let the gas company turn the gas back on. Contact your natural gas or propane supplier (listed in *The Yellow Pages*).

Electricity

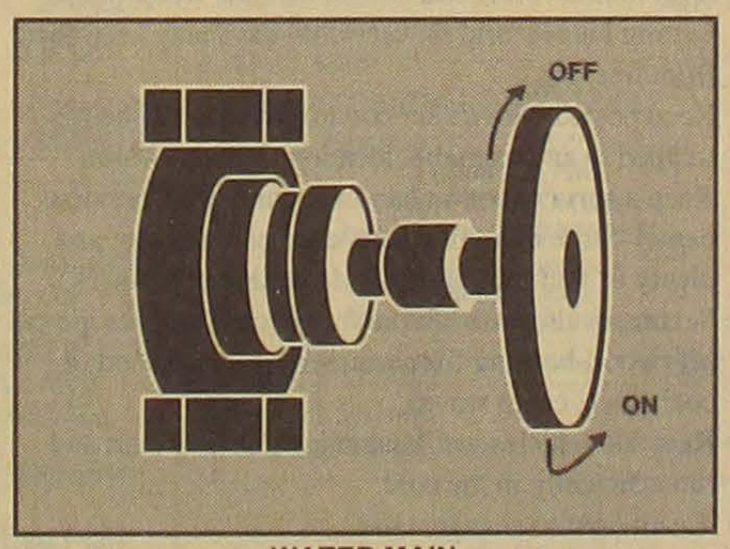

- Turn off electricity ONLY if you see sparks or a fallen wire.
- Find the main circuit box, usually on the outside of the house. (See diagram below.)
- Locate the main circuit breaker or fuse (it will be labeled). Switch the circuit breaker to the off position, or pull out the fuse.
- Have electrical service restored by the local electricity supplier (listed in *The Yellow Pages*).

MAIN CIRCUIT/FUSE BOX

Water

- Find the main water shut-off valve inside the house (located where the water line enters the building). Turn the valve in the direction of the arrow, usually clockwise. (See diagram below.)
- If necessary (and possible), shut off the main water valve outside your home. It may be next to a meter in a concrete box in the sidewalk.
- Turn these valves counterclockwise to restore water flow.
- Have water service restored by the water supplier (listed in *The Yellow Pages*).

On the next page are instructions to follow that may help save lives during specific emergencies.

EASY REFERENCE GUIDE

SEVERE THUNDERSTORMS

One of the most common natural hazards is the severe thunderstorm. Watch for the conditions that may accompany this disturbance.

HAIL — Large hail can cause serious injury, so avoid the outdoors while a storm is in progress. Protect gardens and shelter vehicles to prevent costly damage.

LIGHTNING — Lightning kills more people in the United States than any other natural hazard. It may strike some miles from the parent cloud.

- Avoid being the highest object in any area. Stay away from hilltops, lone trees, or telephone poles. In a forest, move under a thick growth of small trees.
- Do not enter a small structure in an open area.
- If suitable shelter is not available, seek a ravine or valley, and drop to the ground in a crouched position, hands on knees. Do not lie flat.
- Abandon metal equipment (tractors, golf carts, bicycles). Drop golf clubs and remove golf shoes. Keep several yards away from other people.

FLASH FLOODS — Flash floods often occur without warning following upstream heavy rainfall. Drainage canals, streambeds, canyons, or areas downstream from a dam are potential flood areas. Monitor current weather conditions and make evacuation plans. Roads and trails that parallel existing drainage systems may be swept away by flood waters. When a flash flood warning is issued, or you realize a flash flood is coming, act quickly to save lives. Seconds count!

- Go to high ground immediately.
- Do not drive through already flooded areas. Shallow, swiftly flowing water can sweep a car from the road and disguise a washed out road bed.
- Do not attempt to cross a flowing stream on foot where the water is above your knees.

WINTER STORMS

Severe winter storms—with high winds, drifting snow, and icy temperatures—often occur with little warning. At home or traveling, follow these tips.

PREPARATION

- Winterize your home. Apply caulking and weatherstripping to doors and windows. Install storm windows or cover windows with plastic. Add insulation to walls and attics. Insulate water pipes. Letting faucets drip on very cold days may keep them from freezing.
- Keep posted on weather conditions to avoid being trapped in an unsuitable location during a storm.
- Keep a survival kit on hand at home. (See previous page.) Store extra blankets, candles, matches, and plenty of fuel for heating and cooking appliances.
- Secure an alternate heat source in case utilities are cut off (wood-burning fireplace, well-vented wood or coal stove, camp stove).
- Keep all vehicles well maintained so they start and run efficiently in the cold.
- Learn how to change a tire.
- When traveling, take along extra warm clothing, blankets, and non-perishable food and beverages. Keep a shovel, ice/snow scraper, tire chains, and sand or salt in the car's trunk. At all times, carry a first aid kit and an emergency kit including signal flares, a spare tire, jack, lug wrench, a flashlight with extra batteries, reflectors, and jumper cables.

TORNADOES

Tornadoes may occur without warning and usually accompany a thunderstorm in the afternoon or early evening. Stay tuned to an emergency broadcast station if thunderstorms are predicted.

PREPARATION

- Keep an emergency stock of tools in the place you have determined is the safest to wait out a tornado. These may include a lantern and a crowbar, pick, shovel, hammer, pliers, and screwdriver for digging out of debris.
- Mobile home owners should have a licensed contractor tie it down.
- Bring portable furniture, equipment, and pets inside on a day when thunderstorms are expected.

IF A TORNADO WARNING IS ISSUED

A tornado warning means conditions are ripe for tornado formation and one has been sighted. If you are in the general area of a tornado, or you hear the roar of a tornado approaching, follow these guidelines.

In a home

- Stay indoors.
- Immediately go to the lowest level in the building, preferably a basement. Seek out an interior hallway or a small interior room away from windows.
- Crouch under a heavy table, desk, or bench.
- If there is no protective furniture, crouch and brace yourself against an interior doorway or corner.

In a Mobile Home

Mobile homes often overturn during a tornado. Do not remain in your home; evacuate to a community shelter.

In a Store or Office Building

- Don't run for the exit; there may be a stampede. Stay on the same floor. Move away from windows.
- Crouch under a heavy desk, bench, or table.
- Do not use the elevator.

On Foot

- Go inside the nearest sturdy building. If there's no time to enter, crouch next to it.
- If there are no buildings nearby, lie flat in the closest ditch, ravine, or culvert. Cover your head with your hands and arms. Protect yourself from flying debris.

In a Vehicle

- Don't try to outrun a tornado. Leave the vehicle and enter the nearest building, or lie in a ditch, hands covering your head.

AFTER A TORNADO

- Treat the injured with first aid. Take steps to stop bleeding and call for medical assistance if there is an emergency. Don't attempt to move severely injured persons unless they are in immediate danger of further injury. Cover them with blankets.
- Use phones only to report emergencies.
- Put out small fires. Don't use matches, candles, electrical switches, or appliances in case there is a gas leak; rely on flashlights.
- Call trained technicians if utility lines are ruptured.
- Turn on your battery-powered radio or vehicle radio for information and instructions.
- Put on heavy shoes and gloves for walking over and removing glass and debris.
- Clean up dangerous spills (bleach, lye, gasoline).

FLOODS

BEFORE A FLOOD

- Know what has occurred on local property during past floods and take appropriate precautions.
- Consult a local licensed insurance agent for the availability of flood insurance through the federally sponsored National Flood Insurance Program. Generally there is a five-day waiting period, so don't wait until a flood is imminent.
- Install check valves in sewer traps to prevent floodwaters from backing up in sewer drains, or buy large corks or stoppers to plug sinks, showers, tubs.
- Obtain sandbags, plastic sheeting, lumber and towels.
- Fuel vehicles in case evacuation becomes necessary.
- Monitor rapidly changing weather conditions.

DURING A FLOOD

If there is time

- Disconnect all electrical and gas appliances. Shut off the water main to keep contaminated water from the water heater (a source of emergency drinking water).
- Bring outdoor possessions inside.
- Move valuables and essential items to upper floors.
- Sandbags should be stacked well away from the building to avoid damaging walls. If major flooding is expected, flood the basement with clean water to equalize the water pressure on the outside of basement walls and floors. This is to prevent structural damage.
- Round up pets.

Evacuation

- Use travel routes recommended by local authorities.
- Keep a radio on for news and updates.
- Watch for flooding at bridges, viaducts, and low areas.
- Be alert for thunder and lightning that may signify rain and more flooding ahead.
- Don't drive over flooded roads. It's impossible to tell how deep the water is, or if portions of the roadway have been washed out. Vehicles may be swept away.
- Never try to cross flowing water above your knees.
- All passengers should abandon a stalled vehicle immediately and move as a group to higher ground.

AFTER A FLOOD

- Return home only when authorities say it is safe.
- If there is major structural damage or there are utility breaks, have qualified specialists inspect your home and make repairs before you re-enter.
- Be very careful when inspecting your home on your own for the first time. • Use a flashlight, not a torch or lantern. • Check for gas leaks. (Use your nose.)
- Wear rubber-soled shoes and rubber gloves in case of severed electrical lines. • Don't turn on electrical switches. • Check electrical circuits only when electricity has been shut off. • Don't use flooded electrical appliances until they have been repaired.
- Don't drink municipal water until the health department has declared it safe.
- Don't rush to pump out a flooded basement. If the water is removed all at once, the walls may cave in because of the sudden pressure change. Pump out about a third of the water a day. Mud is easier to shovel while it is still moist.

The determination of the need for legal services and the choice of a lawyer are extremely important decisions and should not be based solely upon advertisements or self-proclaimed expertise. This disclosure is required by rule of the Supreme Court of Iowa.

A description or indication of limitation of practice does not mean that any agency or board has certified such lawyer as a specialist or expert in an indicated field of law practice, nor does it mean that such lawyer is necessarily any more expert or competent than any other lawyer. All potential clients are urged to make their own independent investigation and evaluation of any lawyer being considered. This notice is required by rule of the Supreme Court of Iowa.

Warning!
If You're Suffering From An Auto Accident Injury (whiplash), Don't Call Any Doctor Until You Read This.

Did you know there are doctors who specialize in treating people who suffer from auto accident injuries?

It's true. You see, working with motor vehicle accident victims requires a lot of special examination and treatment to help your problem. It also requires a lot of special documentation for your insurance companies and attorneys.

It's important that your condition be very carefully and properly treated for maximum recovery. It also has to be thoroughly documented, because what is done and recorded can make the difference in the results of your case.

Dr. John R. Moore, D.C., C.C.S.P.

In addition, the doctor may have to make court appearances or depositions on your behalf. Many physicians aren't willing, or just are not an expert in this.

Fortunately, there is a clinic in Ames that specializes in motor vehicle accident injuries. In addition, they are experts in caring for nerve-muscle-joint problems, especially those of the neck, back, legs, and arms.

U S WEST COMMUNICATIONS

Your complete telephone number is needed on long distance calls-both to and from Jewell-and whenever you give your number to others. However, on local calls to other Jewell telephones, the first two numbers-82-may be omitted.

HOW TO CALL ANOTHER PARTY ON YOUR LINE

Two-party customers dial 421.

After dialing the number hang up. Your telephone and the called telephone will ring until the call is answered. When the ringing stops, remove receiver and start your conversation. If no answer, remove receiver for a few seconds and then replace it to stop the ringing.
